For more details or to register: see summercore.com/icore

Background Our iCore workshops are based on the success of Summercore -- providing high quality training and workshops to teachers and administrators since 1982

"The iCore training was invaluable for our entire faculty as we prepare for a year of iPad integration at our school. We are now all talking the same language. Perhaps the most valuable outcome is that everyone feels more comfortable with the tablet and exploration of the applications. Steve, Lynne and Sam inspired our teachers and they are still anxiously sharing their discoveries and successes." Scott Laird, head of St. Mary's Episcopal School (Tampa FL)

"Steve, Lynne and Sam at Summercore do an incredible job of addressing the different levels of all participants. At my session we had individuals ranging from very reluctant, very occasional users to someone who was the head of IT for a university. At the end of the week each person said it was the best workshop they had ever attended."

Bob Vitalo, Head of Berkeley Carroll School (Brooklyn, NY)

"The Summercore workshop exceeded my expectations of what I had envisioned. I have never seen my teachers so engaged and all on the same page where technology is concerned. We are starting our technology initiative in the right direction thanks to you all!" Alisa Eng, Director of Curriculum and Instructional Support at Annunciation Orthodox School (Houston TX)

Other Services and Other iCore Workshops
