

LESSON 4: Oct 20 due Oct 27

HW 4.1 Required Worksheet sent via Doctopus to each of you

CHOICE THIS WEEK -- do either 4.2 or 4.3 (or if ambitious and have time, do both)

HW 4.2 Sent to each team of two partners to be done with Kaizena

HW 4.3 Shared Document that you have access to OPTIONAL

HW 4.4 Required Google Add On and one sentence you write on our Collaborative Doc

Before we get started, I wanted to share a quote from Jacque from Houston that might encourage others to try Flubaroo:

"On a side note, I used google forms for my first vocabulary quiz this week and got instant grades using Flubaroo. It was great. I really like how the students get their results in an email with the questions highlighted in red or green."

We begin Lesson 4 by showing you a bunch of quick tricks & tips hoping that most of you will find at least one or two to be interesting and useful.

First the SS trick with the triangle that you saw in Lesson 3 on the spreadsheet called [TINYURL.COM/GDREVIEW33](https://tinyurl.com/GDREVIEW33) --

	A	B	C	D	E	F	G	H
1	LESSON	ID#	DESCRIPTION (for each item below use YOUR column on the right and the TRIANGLE to indicate GOT IT or NEED HELP or NOT SURE)	B R E N D A	C A R L A	C A T H Y	D O U G	G A U R I
2	1	1	Name each of the modules of GD and state one interesting unique feature about each one?	got it	got it	got it	got it	got it

STEP 1: You highlight a cell or a group of cells and then choose VALIDATION at the bottom of the DATA menu.

STEP 2: you change CRITERIA to be LIST OF ITEMS

STEP 3: you put in your descriptors separated by commas.

Suggestion? Try it now on a blank GD SS (see below)

Data validation

Cell range:

'Main SS with shortcut 

Criteria:

List of items 

got it,need help,not sure

On invalid data: ☒ Show warning ☐ Reject input

Appearance: ☒ Display in-cell button to show list

☒ Show help:

Click and enter a value from the list of items

[Reset](#)

Save

Remove validation

Cancel

Second, I wanted to share the tip that **COMMAND /** on Mac or **CTRL /** on PC brings up a help screen of keyboard shortcuts in GD. **Try it on different GD screens** whether WP or FORMS or SS and you may well become a user!

Third, I want to let you know that there is a collection of **hundreds of templates** on the website of <http://drive.google.com/templates> -- you can search by category or type in a search word. I guarantee you will find something useful! Look at the categories on the left including foreign languages if that is relevant.

this one template contains dozens of math worksheets with answer ready to use

MAP OF THE UNITED STATES

this one template is a Google Drawing just like we did with "Stick Lines" to draw our names in Lesson 1, except this person drew the 50 state outlines!

Fourth I want to tell you that when in GD WP, there is a feature I have not mentioned yet called **PREFERENCES** that **lets you add keyboard shortcuts**. So I can program it so that "sbe" followed by space bar automatically types my email or if you teach English you can program it so that "frag" followed by space bar automatically types the phrase "This is a fragment and does not constitute a complete English sentence."

Preferences

- ☒ Use smart quotes
- ☒ Automatically detect links
- ☒ Automatically detect lists
- ☒ Automatic substitution

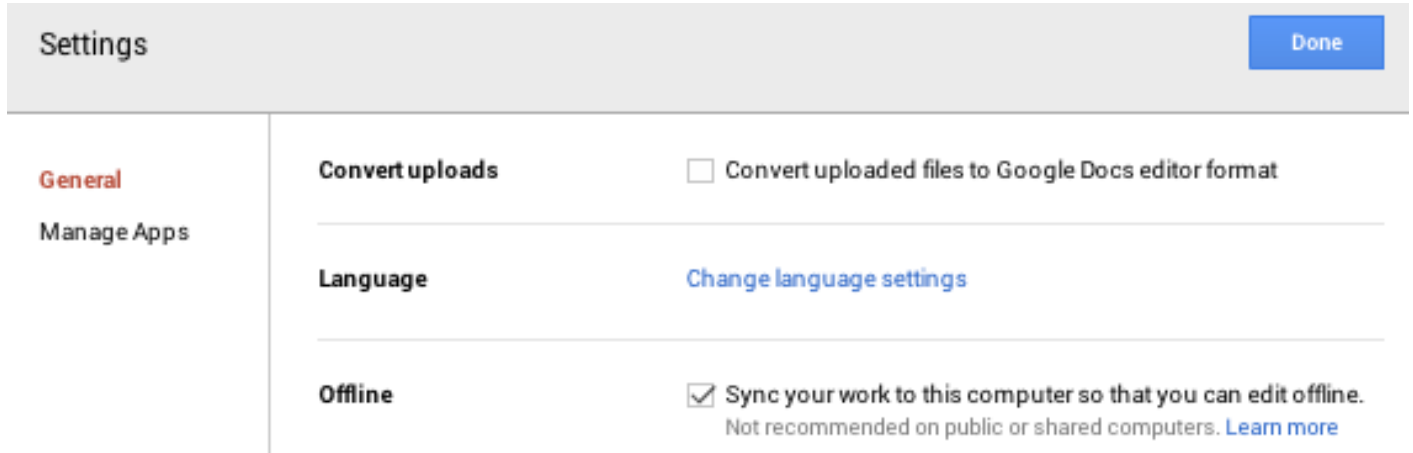

Replace	With
<input checked="" type="checkbox"/> sbe	sbergen33@gl x
<input checked="" type="checkbox"/> (c)	© x

Fifth, the feature called **TRANSLATE** under **TOOLS** takes your WP document and puts it into a different language.

Cinquièmement, la fonctionnalité appelée **TRADUIRE** sous **OUTILS** prend votre document WP et le met dans une autre langue

Sixth, GD allows you to have OFFLINE access and change documents when you have no internet access. To investigate or disable this feature, you go to the GEAR on the right which stands for SETTINGS and look at the THIRD OPTION that says OFFLINE to make sure it is checked to SYNC YOUR WORK.

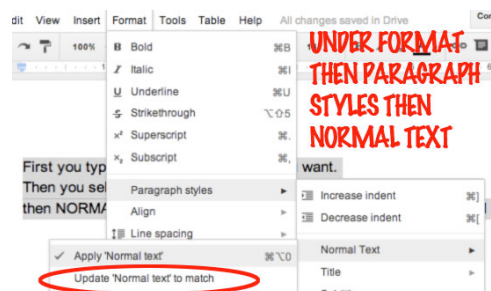

If you work offline, then you can find your files via DRIVE.GOOGLE.COM when you have no internet access and your files are updated when you come back online. The lightning bolt

Yes it works! ⚡

shows you that you are working offline either on a new document or modifying one of your existing ones.

Seventh, you can change the DEFAULT FONT and STYLE that you see when you begin a brand new document.

First you type the font, size and style you want. Then you select it and choose FORMAT then PARAGRAPH STYLES then UPDATE NORMAL TEXT TO MATCH. But this locks in the NEW NORMAL just for this document. So then you must go back to OPTIONS under FORMAT and then PARAGRAPH STYLES and choose SAVE AS MY DEFAULT STYLES so that it remains true in future documents.

The required video that shows these 7 features in sequence is at

http://youtu.be/-09eUG_jeWI0

and is called 7 More GD Tricks (11 min).

Here is one more tip that I did not include on the above video.

Eighth, you can hold down any vowel when typing on Google Drive and you will get various alphabetical foreign language symbols. You choose with the arrow keys followed by ENTER or RETURN.

Caution: this may not work on all Mac or PC operating systems

HW 4.1 was sent to you via Doctopus as a worksheet. Reminder that in our individual 30 minute sessions via screenshare, I would be most happy to give you personal guidance on either Doctopus or Flubaroo to see if that might be of value to you. I loved getting this email from one person in this course back in January: *"Flubaroo is AMAZING! I love the email feature especially since our middle school and high school students have email addresses. It's SO easy to use too!"*

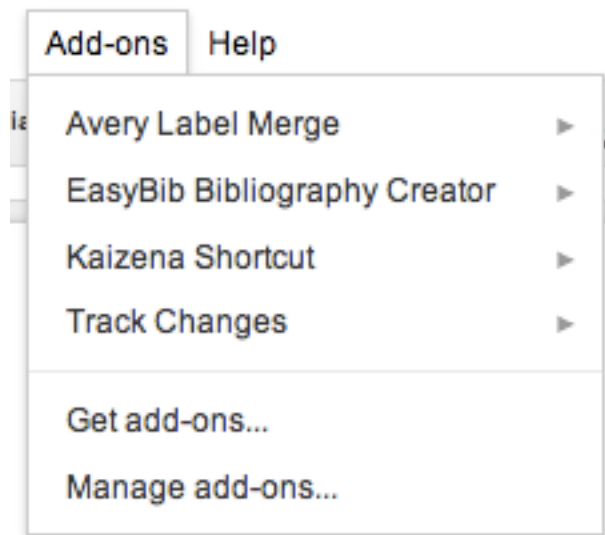

Next Topic (optional -- choose 4.2 or 4.3)

Next we move to Kaizena which I also hope some of you will love. Kaizena allows you to attach voice to a GD WP document. GD is a unique add-on of GD.

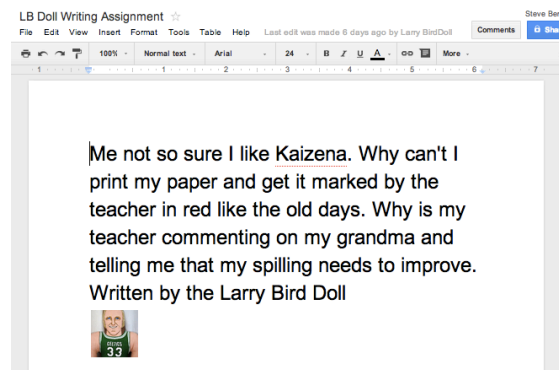

If you do not have a computer with a working microphone, our Plan B is that we can do it via screenshare when we have our 30 minute appointment.

Serious!

You can see the ADD-ONS by going to CONNECT MORE APPS under the CREATE option. If you look at my account, you will see that I have added Avery Labels, EasyBib, Kaizena and Track Changes to my account. You can also find info on the <http://kaizena.com> website. There are different add-ons for the WP module and the SS module. No other GD module yet has add-ons.

For your HW assignment -- let us call it HW 4.2 -- I have shared a document written by the Larry Bird doll called PARAGRAPH OCT 2014 LB DOLL for ??? with **you and your partner** where it says ???. You need to access it and leave 3 short voice comments about mistakes in his writing. Please make each comment short, e.g. less than 33 seconds.

Here are my two Kaizena videos. You can watch them before you read below or after as you like

<http://youtu.be/srl9iCbFs8o> (4 min) and <http://youtu.be/IUaw2iN2M2Y>

and this excellent video by someone else, Stacy Behmer

<https://www.youtube.com/watch?v=61K0eKIPx6E&feature=youtu.be>

The first one shows you how I as teacher used Kaizena to evaluate the LB Doll paper while the second shows you how the LB Doll listened to the teacher eval. The third one shows all the new Kaizena features based on the recent upgrade.

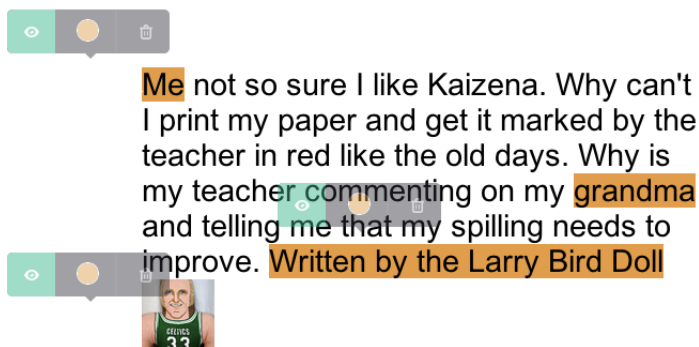

Some people seem to pronounce "kai-zeena" while others pronounce it "kai-zeh-na" but I found a video <http://www.youtube.com/watch?v=3MnshZ-Cdp4> that gave me the definitive answer. It is indeed "**KAI -- ZEH -- NA**" so I apologize for my mispronouncing it on my first video! By the way, "Kaizen" refers to a Japanese philosophy of continuous improvement or "good change."

To boost your GD with **KAI -- ZEH -- NA**, you just open a WP document -- preferably in Google Chrome but it works on Firefox and Safari (not Internet Explorer)

Install Kaizena easily! Go to add-ons menu. Choose GET ADD-ONS subchoice. Type Kaizena or scroll and point to it. Click FREE. Choose ACCEPT.

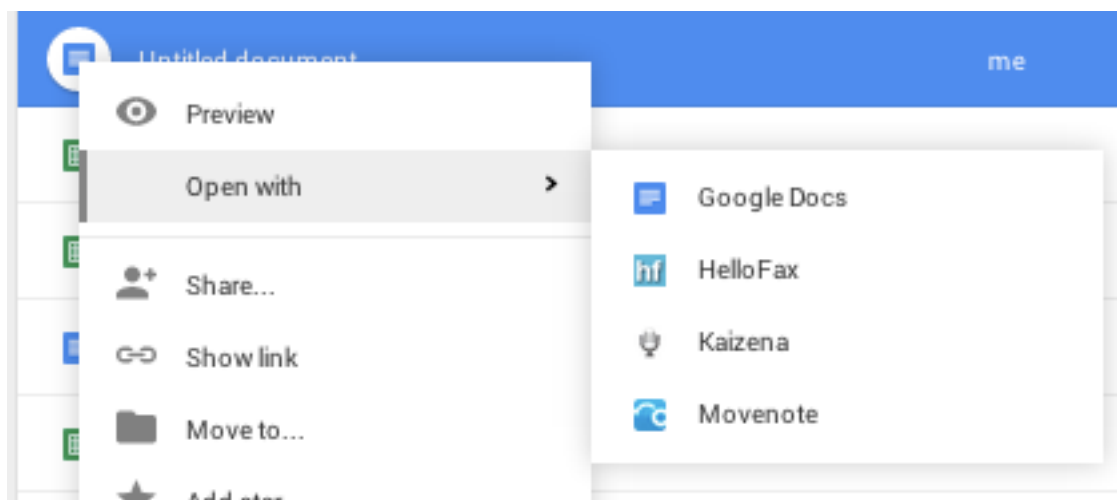

That is **the required Kaizena HW assignment -- 4.2** -- to use Kaizena to voice record about Larry's writing so that your partner and I can hear your voice. Send an email to your partner and me once done and I will check it by listening and email you back.

Important question that always comes up? If a teacher has Kaizena installed and the students do not, will they hear the audio comments? Answer is no, regrettably. In a school using Kaizena, the students also need to install.

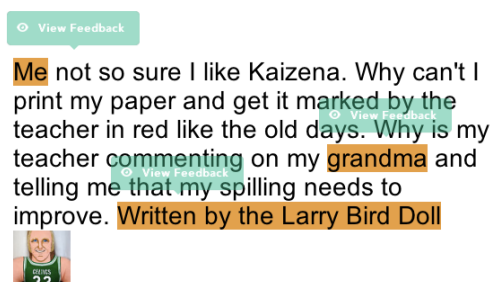

Warning -- do not OPEN my document via normal method! Instead use OPEN WITH.

The most common mistake re **HW 4.2** is opening the document and expecting Kaizena to work. No way! You must install Kaizena and then you choose **OPEN WITH** Kaizena. You get OPEN WITH by using the RIGHT MOUSE button (PC) or CONTROL CLICKING (MAC).

With the Kaizena view you can see (and hear) the voice comments on this document.

By the way, here is what I will see after you make 3 audio comments.

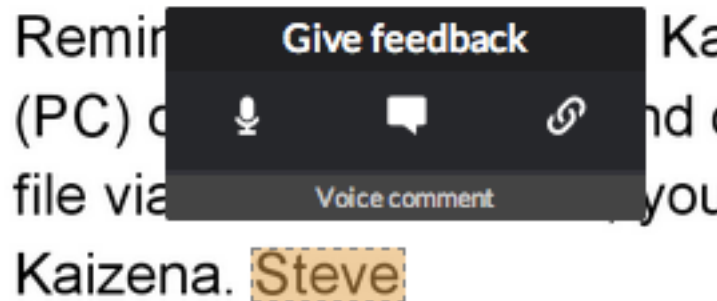

So the Kaizena assignment -- **HW 4.2** -- is to install and use Kaizena and add 3 short (under 33 seconds) voice comments to the shared document called **LB Doll Writing Assignment** that I have shared with each of you.

Once you choose OPEN WITH and see the document, you can LISTEN to my recording to you in the top paragraph. To make your own audio comment, you highlight a word or phrase and then you will see this TAG note. Choose SKIP!

Then you will see this option and you click on the MICROPHONE

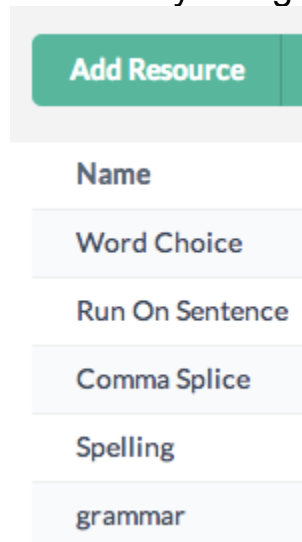

Kaizena has more features than just voice recording!

You can color code your text comments or voice comments by category

You can post resources for your students by category of corrections

I look forward to showing you more on Kaizena one-on-one in our next screenshare!

Reminder -- if your microphone (Mac or PC) does not work, you can complete the 4.2 Kaizena assignment via screenshare (TeamViewer) when we have our 30 minute appointment.

OPTIONAL HW 4.3 MERGING CELLS in GD Spreadsheet

FILE NAME: HW 4.3 Spreadsheet F14 • each person has TAB at bottom

Merging Cells Video (created for someone else but useful for you)

<http://youtu.be/Uv-VBLYUiFE> 5 minutes

Next Spreadsheet Skill

Let us learn to use the & command, a powerful and useful spreadsheet command.

Let us say we have first names in one column of a spreadsheet and last names in another column. The command called & pronounced "ampersand" is sometimes called the CONCATENATE OPERATOR. Concatenate ("con-cat-uh-nate") is a fancy way of saying JOIN two items. Look at this example where I have used the ampersand to join first name and last name.

	A	B	C
1	Lesson 5	Concatenate	
2			
3	Alice	Jones	=A3&B3
4	Bill	Smith	
5	Carol	Tompkins	
6	David	Howard	
7	Ellie	Miller	
8			

After pushing return/enter and using the magic trick to fill down, I get

	A	B	C
1	Lesson 5	Concatenate	
2			
3	Alice	Jones	AliceJones
4	Bill	Smith	BillSmith
5	Carol	Tompkins	CarolTompkins
6	David	Howard	DavidHoward
7	Ellie	Miller	EllieMiller

which is not really satisfactory since it is missing the space. So now I will concatenate with 3 things including the " " space character.

	A	B	C
1	Lesson 5	Concatenate	
2			
3	Alice	Jones	=A3&" "&B3
4	Bill	Smith	
5	Carol	Tompkins	
6	David	Howard	
7	Ellie	Miller	

Or we can concatenate to achieve last name comma first name.

	A	B	C
1	Lesson 5	Concatenate	
2			
3	Alice	Jones	=B3&", "&A3
4	Bill	Smith	
5	Carol	Tompkins	
6	David	Howard	
7	Ellie	Miller	

We get this as a result.

	A	B	C
1	Lesson 5	Concatenate	
2			
3	Alice	Jones	Jones, Alice
4	Bill	Smith	Smith, Bill
5	Carol	Tompkins	Tompkins, Carol
6	David	Howard	Howard, David
7	Ellie	Miller	Miller, Ellie

By the way, just recently in Sept 2013, Google added *View All Formulas* onto Google Spreadsheet. It is the eighth choice down under the VIEW menu and results in your seeing all the formulas at once on your spreadsheet. I love having this feature and said in Summercore 2013 in July that "I hope that one day Google Drive will add the feature to *View All Formulas*. My wish has come true! Use it! It is very helpful.

	A	B	C
1	Lesson 5	Concatenate	
2			
3	Alice	Jones	=B3&", "&A3
4	Bill	Smith	=B4&", "&A4
5	Carol	Tompkins	=B5&", "&A5
6	David	Howard	=B6&", "&A6
7	Ellie	Miller	=B7&", "&A7

Since we have alphabetical info on the spreadsheet, let us take advantage of this to talk about SORTING which you will find under the DATA menu. If you choose SELECT ALL via Command A (Mac) or Control A (PC) or by clicking the tiny rectangle at the top left of the spreadsheet and look under the DATA menu you will see

It would be a mistake to choose any of the top 4 choices, but feel free to do so and then you can undo. What is needed is choosing SORT RANGE (the fifth option) since it allows you to specify that your "Data has header row."

Sort range from A1 to T100

☒ Data has header row

sort by

Lesson 5

☒ A → Z

☐ Z → A

Alternatively, we can put in headers for the three columns

	A	B	C
1	Lesson 5	Concatenate	
2	FIRST	LAST	JOINING
3	Alice	Jones	Jones, Alice
4	Bill	Smith	Smith, Bill
5	Carol	Tompkins	Tompkins, Carol
6	David	Howard	Howard, David
7	Ellie	Miller	Miller, Ellie

and then highlight just rows 3 to 7 before going to the DATA menu.

	A	B	C
1	Lesson 5	Concatenate	
2	FIRST	LAST	JOINING
3	Alice	Jones	Jones, Alice
4	Bill	Smith	Smith, Bill
5	Carol	Tompkins	Tompkins, Carol
6	David	Howard	Howard, David
7	Ellie	Miller	Miller, Ellie

Since we have highlighted just rows 3 to 7 (done by clicking and dragging from 3 to 7 in the left column) we do not want to check DATA HAS HEADER ROW when we sort since we did not include the column headings when selected.

Sort range from A3 to T7

☐ Data has header row

sort by

Column B

☒ A → Z

☐ Z → A

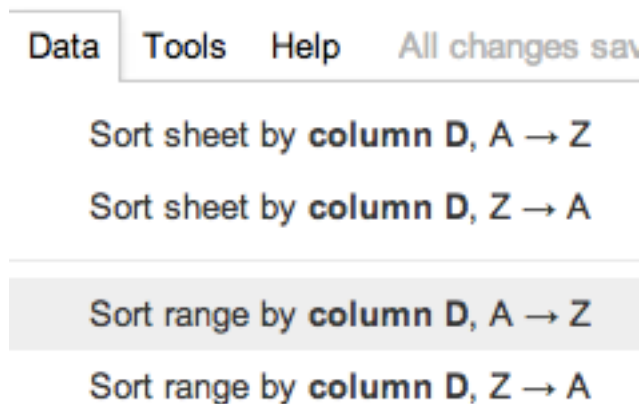

Got it? You choose that checkbox on or off depending on what you selected.

And then there is sometimes the need to alphabetize a PORTION of your spreadsheet without affecting the other data in those rows. Consider this example where we need to sort the VOCAB WORDS in column D without messing up columns A to C.

	A	B	C	D
1	Lesson 5	Concatenate		
2	FIRST	LAST	JOINING	VOCAB WORDS
3	Alice	Jones	Jones, Alice	header
4	Bill	Smith	Smith, Bill	join
5	Carol	Tompkins	Tompkins, Carol	concatenate
6	David	Howard	Howard, David	ampersand
7	Ellie	Miller	Miller, Ellie	view all formulas

So we highlight just cells D3 to D7 and then go to the DATA MENU and choose the SORT RANGE feature (third one down).

This results in

	A	B	C	D
1	Lesson 5	Concatenate		
2	FIRST	LAST	JOINING	VOCAB WORDS
3	Alice	Jones	Jones, Alice	ampersand
4	Bill	Smith	Smith, Bill	concatenate
5	Carol	Tompkins	Tompkins, Carol	header
6	David	Howard	Howard, David	join
7	Ellie	Miller	Miller, Ellie	view all formulas

Finally, I want to highlight one the use of the =SPLIT formula in Google Spreadsheet to do what Excel users call Text to Columns. Consider this spreadsheet with full names and the desire to make the data be separate columns.

	A	B	
1	Alice Jones		
2	Bill Smith		
3	Carol Tompkins		
4	David Howard		
5	Ellie Miller		

The command =SPLIT put into B1 is very easy to do!

summercore

	A	B
1	Alice Jones	=SPLIT(A1," ")
2	Bill Smith	
3	Carol Tompkins	
4	David Howard	
5	Ellie Miller	

The formula has two parameters separated by a comma. So in B1, we are saying that we want to SPLIT the cell A1 by the SPACE character. This results in

	A	B	C
1	Alice Jones	Alice	Jones
2	Bill Smith		
3	Carol Tompkins		
4	David Howard		
5	Ellie Miller		

after we push return/enter and then we just use the magic fill down trick on B1.

For one more example, let us say we had

	A	B
1	Jones, Alice	
2	Smith, Bill	
3	Tompkins, Carol	
4	Howard, David	
5	Miller, Ellie	

and we wanted to "unjoin" or "separate" the first and last names.

Can you guess the formula? It is on the top of the next page

	A	B
1	Jones, Alice	=split(A1, ",")
2	Smith, Bill	
3	Tompkins, Carol	
4	Howard, David	
5	Miller, Ellie	

Hope you follow all this and don't think it too esoteric and specialized.

So the OPTIONAL assignment -- **HW 4.3** -- is to perform the assigned tasks in the SHARED DOCUMENT that I have given each of you titled HW 4.3 GD EXER Split Amperand -- I have also shared it with each of you and made it into a tiny URL for you -- <http://tinyurl.com/HW4dot3F14>

-- **HW 4.3 Spreadsheet F14 • each person has TAB at bottom**

HW 6.2GD EXER Split Amperand ☆

25						CHALLENGE THREE -- HIGHLIGHT JUST ROWS 18-24 in your own worksheet and SORT BY COLUMN D so that partners are next to each other.			
26									

Next assignment 4.4

The assignment is to identify one ADD-ON that we have not mentioned in this course so far and to do a bit of research about it. You will find a section in our Collaborative Document called 4.4 where you can write about it. All I want for this week is one sentence that say "I thought the Add-On called _____ was interesting because it has the feature that _____."

On the next few pages, you will find some visuals for add-ons. Once you identify one, you can learn about it by going to YouTube or Google and typing the name of the Add-On. Sometimes you need to include "add-on"

NOTE: I am NOT requiring or asking you to use this Google Add On!

Here are some articles about Add-Ons

<http://lifehacker.com/the-best-add-ons-for-google-drive-1541643206>

PARTNER PROJECT OVER THE NEXT FEW WEEKS

How to begin?

One of the two of you creates a NEW GD PRESENTATION and gives EDITING privilege to the other. Slide 1 will be your two names and two schools. Slide 2 will be owned by one of you and will be a list of a few favorite GD features by one of you. Slide 3 will be owned by the other person and will be the same. You can add links or graphics to slide 2 or 3.

HW 7.1 Please start ***moving on*** a new GD Presentation on "Favorite GD Features" in which you and partner(s) highlight several of your favorite GD features. This will involve email exchange and a GD shared presentation. This assignment is not due until November 10th on our last week which is why I am calling it **HW 7.1**. There will be more on the specs for this each week.

Have a good week.

Three more lessons to go everyone after today! Have a good week!

Steve

phone = 781-953-9699
skype name = stevebergen (no spaces)

p.s. Jacque from Houston has been using a Google site for her course -- in case you want to see what a "mature" Google site looks like, the URL is

<https://sites.google.com/a/myshlenker.org/the-zone/>

p.p.s. Here is the Columbus Day link on the ADD ON Google Add-On called SAVE AS DOC which allows you to take the RESPONSES from a SURVEY form and automatically move them into a friendly easy to read Google WP doc.

<http://tinyurl.com/columbusday1>
