

ODA PINK CARD QUESTIONS

I'd like to learn about the newest programs I can use in the classroom for the laptops or iPads.

What are the best iPad apps for reading skill reinforcement?

I'd like to use Teacher Pad (or a similar app) to give my students quizzes in class, but I do not have experience with an app like this."

i would LOVE to learn how to use a music writing app. I used to use Encore...and now we have Finale, but I haven't had time to figure it out and it gets updated so often, that I can't keep up with all the new things. I have iWrite on the ipad and I think it looks good, but I haven't had time to see if it really works for writing and reproducing music.

I'd like to make better use of my ipad. Figure out a lesson with the students, perhaps in note-reading, that would be valuable and not just a waste of time. Also, I am not sure how icloud and google docs work....; I have a lot of things stored there, but am not sure fi they are secure or if I can always get to them.

I need to learn the basics...how to bring a folder to the desktop (s.a., Documents) or how to ""share"" a folder with someone"

Making folders, organizing documents,

"learning new tools
inspiration for teachers"

to be able to use the interactive white board effectively
to use Evernote effectively

ways to manage iPad apps"

"To become more familiar with the technology offered to ODA and how to use it effectively in the classroom.

Examples:

Skype Google Docs Evernote iPad Digital Portfolios
Renzulli Interactive Board Designing Lessons on tech tools
Mac Pro 101

Would like to learn how to integrate the 3M board with Evernote.

Would like to learn how to create Flipcharts for the 3M board."

Organizing my school files on computer (in folders).

Obtaining a better grasp of blogging and its educational use.

Better use of the interactive white board."

Learning any of the new programs that will be used in the classroom.

Hopefully information will be provided that is streamlined as much as possible. Utilizing more of the computer/Ipad."

finding new apps and ways to integrate the iPads
learning about new programs/websites that my kids can use"
ways to sync my calendars to see my lesson plans and to do list all in one place

homework on line

differentiating using tech"

To become more proficient with the I-pad and its applications.

To learn to use the 3M boards.
PowerPoint....."

To be exposed to more ways of incorporating technology into learning.

Using technology to make my life easier.

Using technology for projects."

I would like to become comfortable with Evernote in order to use it to create notebooks for my students next year.

finding more valuable connections with technology and learning the Spanish language for elementary. It's getting better, but there are limited resources in (good) language-learning sites/resources.

I would like to become more comfortable with technology and I would like to learn more about how to use more technology in the classroom

How to filter through APPs on the IPADS and find good educational apps that are not just games.

Learn more about 3M boards
Setting up information on my computer

more sites for aid in reading skills

more math sites"

better knowledge of the programs available
Basic stuff. I am pretty illiterate when it comes to computers.

Learn and understand Google Docs
Expand my skills on Evernote
Develop my ability to navigate through the iPad.
Create iMovies
Improve blogging skills
Learn Twitter

Become more comfortable with the iPad. (I don't own one.)
Thinking more like a computer
Using my computer more effectively - ie., Excel for lists, etc.

Use of Google Docs more effectively

Making iMovies"

Use of Ipad for physical education purposes

Using technology to make documentation easier.
Learning about any new technology that may enhance our physical education program."

The use of evernote
Learn how to organize and synthesize all of my documents"

Would love to have more ideas for using technology and Scratch in the classroom with grammar.

Everything I teach is grammar/writing based, so I am always looking for creative ideas to keep my students excited and engaged learners."
